LEARNING ROADMAP 3 LEVEL PROJECT BASED LEARNING

01

LEVEL BASIC BEGINNER

Materi:

- Fundamental IoT & Robotics
- ESP32
- Sensor & Actuator
- Programming Dasar
- Smart Home & Robot

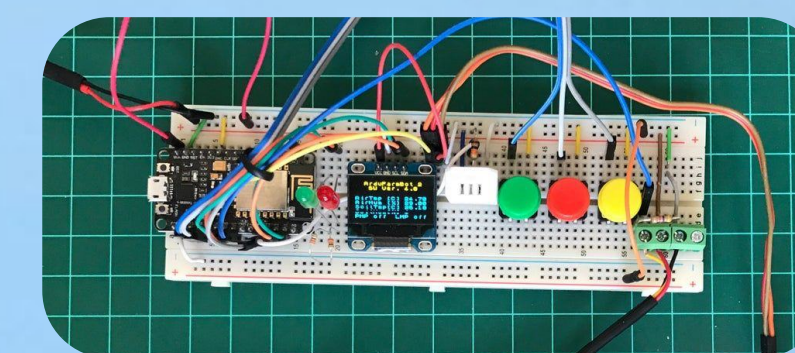

02

LEVEL INTERMEDIATE INTERMEDIATE

Materi:

- IoT Advanced
- Smart Gardening
- Smart Parking
- IoT Dashboard
- Line Following Robot

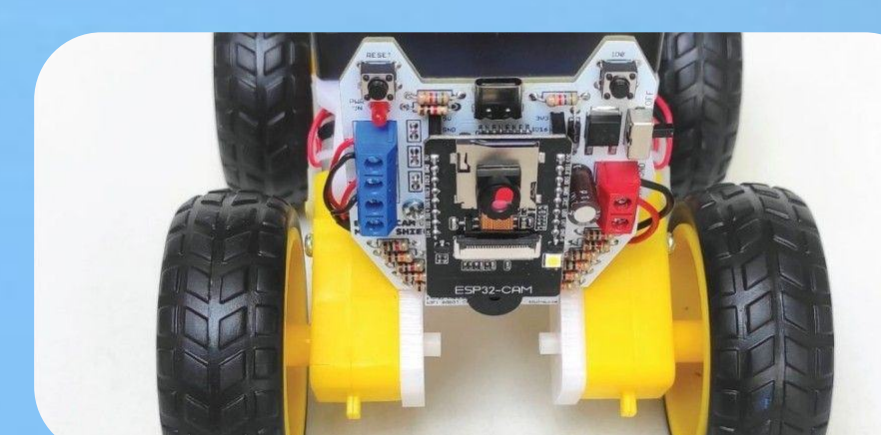

03

LEVEL ADVANCED ADVANCED

Materi:

- Smart City
- Artificial Intelligence
- AI Camera Detection
- Computer Vision
- Data Analytics

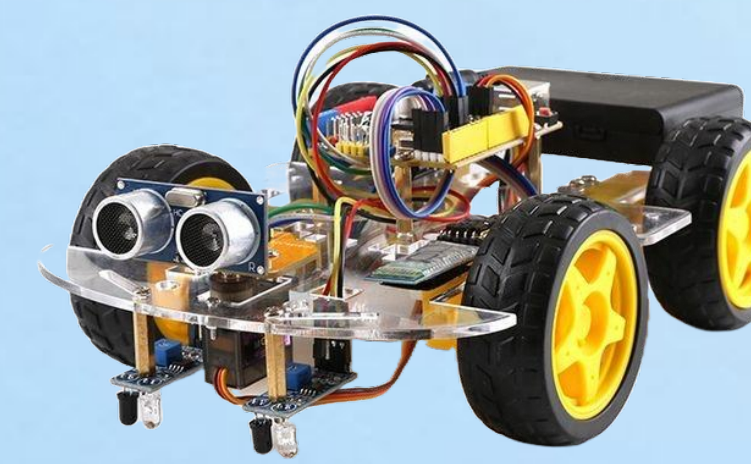

4 LEARNING SERIES

INTERNET OF THINGS (IoT)

Pelajari IoT dari dasar hingga
implementasi sistem cerdas berbasis
ESP32 dan Sensor

ROBOTICS

Rancang dan bangun robot berbasis
ESP32 dan Sensor.

ARTIFICIAL INTELLIGENCE

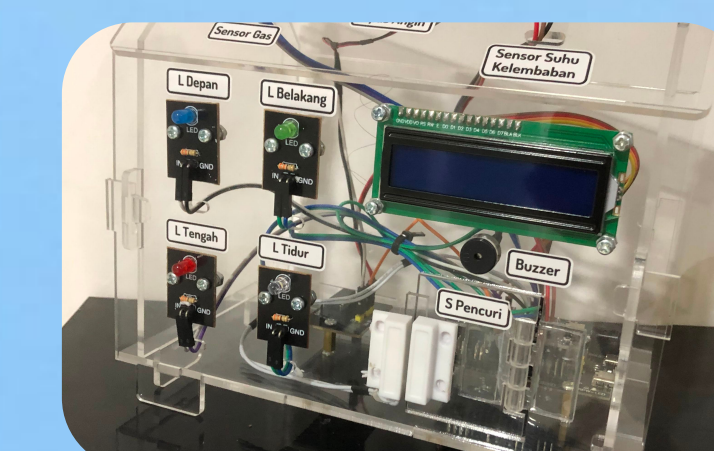

Belajar AI, Computer Vision, AI
Camera Detection dan Automation.

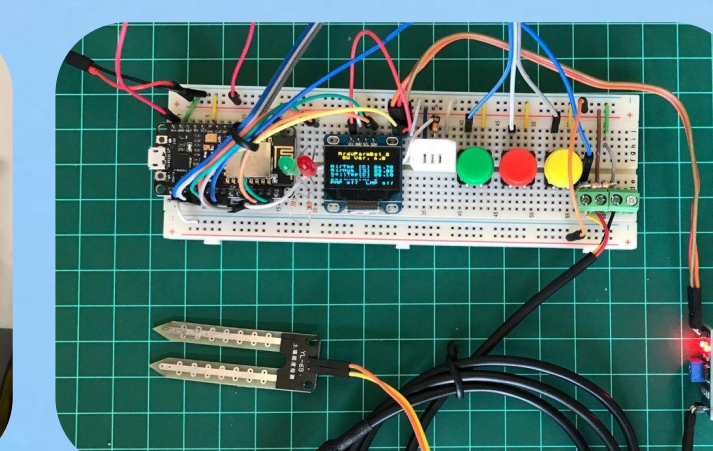

FLYING DRONE

Pelajari teknologi drone, flight
control dan aerial robotics.

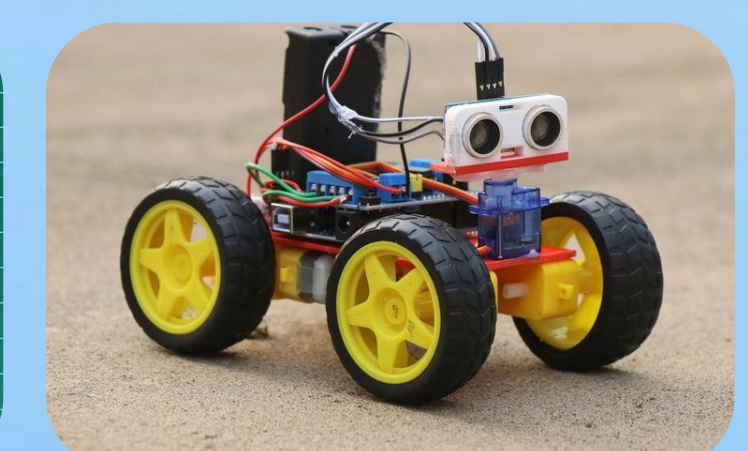

PROJECT SHOWCASE

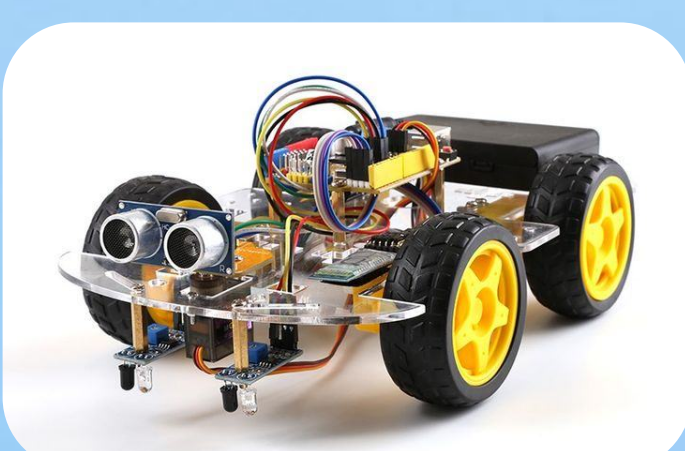

Smart Home

Smart Garden

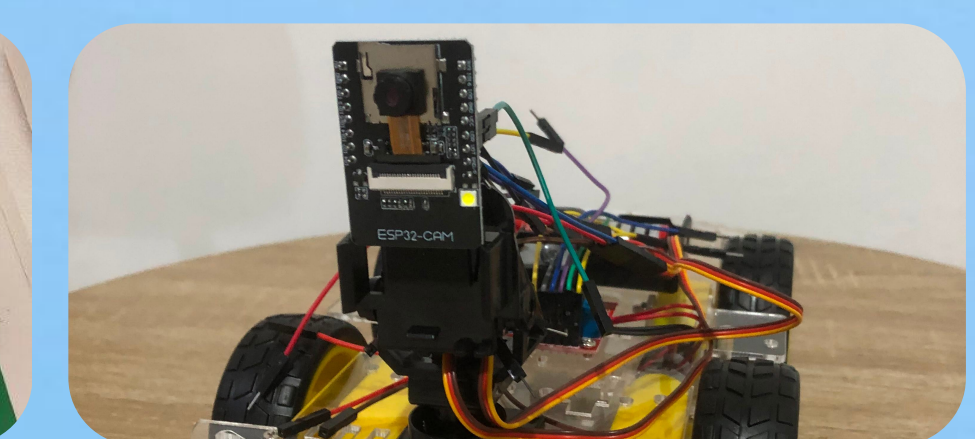

Robot Object

Robot Line

Smart City

Robot AI Cam

Drone

Setiap level memiliki Final Project
sebagai syarat kelulusan untuk
melanjutkan ke level berikutnya

Learning Experience

Mentor Berpengalaman

Dibimbing oleh mentor profesional yang berpengalaman di bidang teknologi dan industri

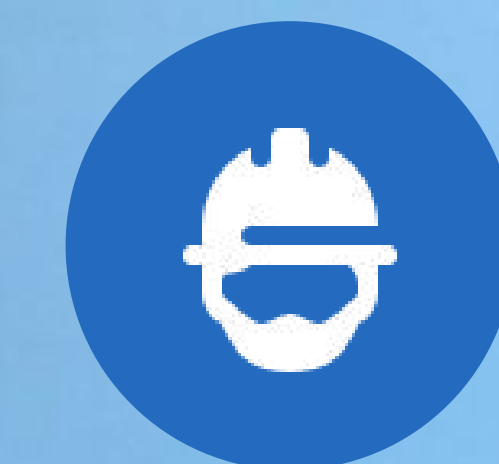

Modul Interaktif

Modul pembelajaran interaktif, mudah dipahami, dan dilengkapi studi kasus nyata.

Learning Management System

Didukung Learning Management System (LMS) untuk memantau progres belajar secara terstruktur

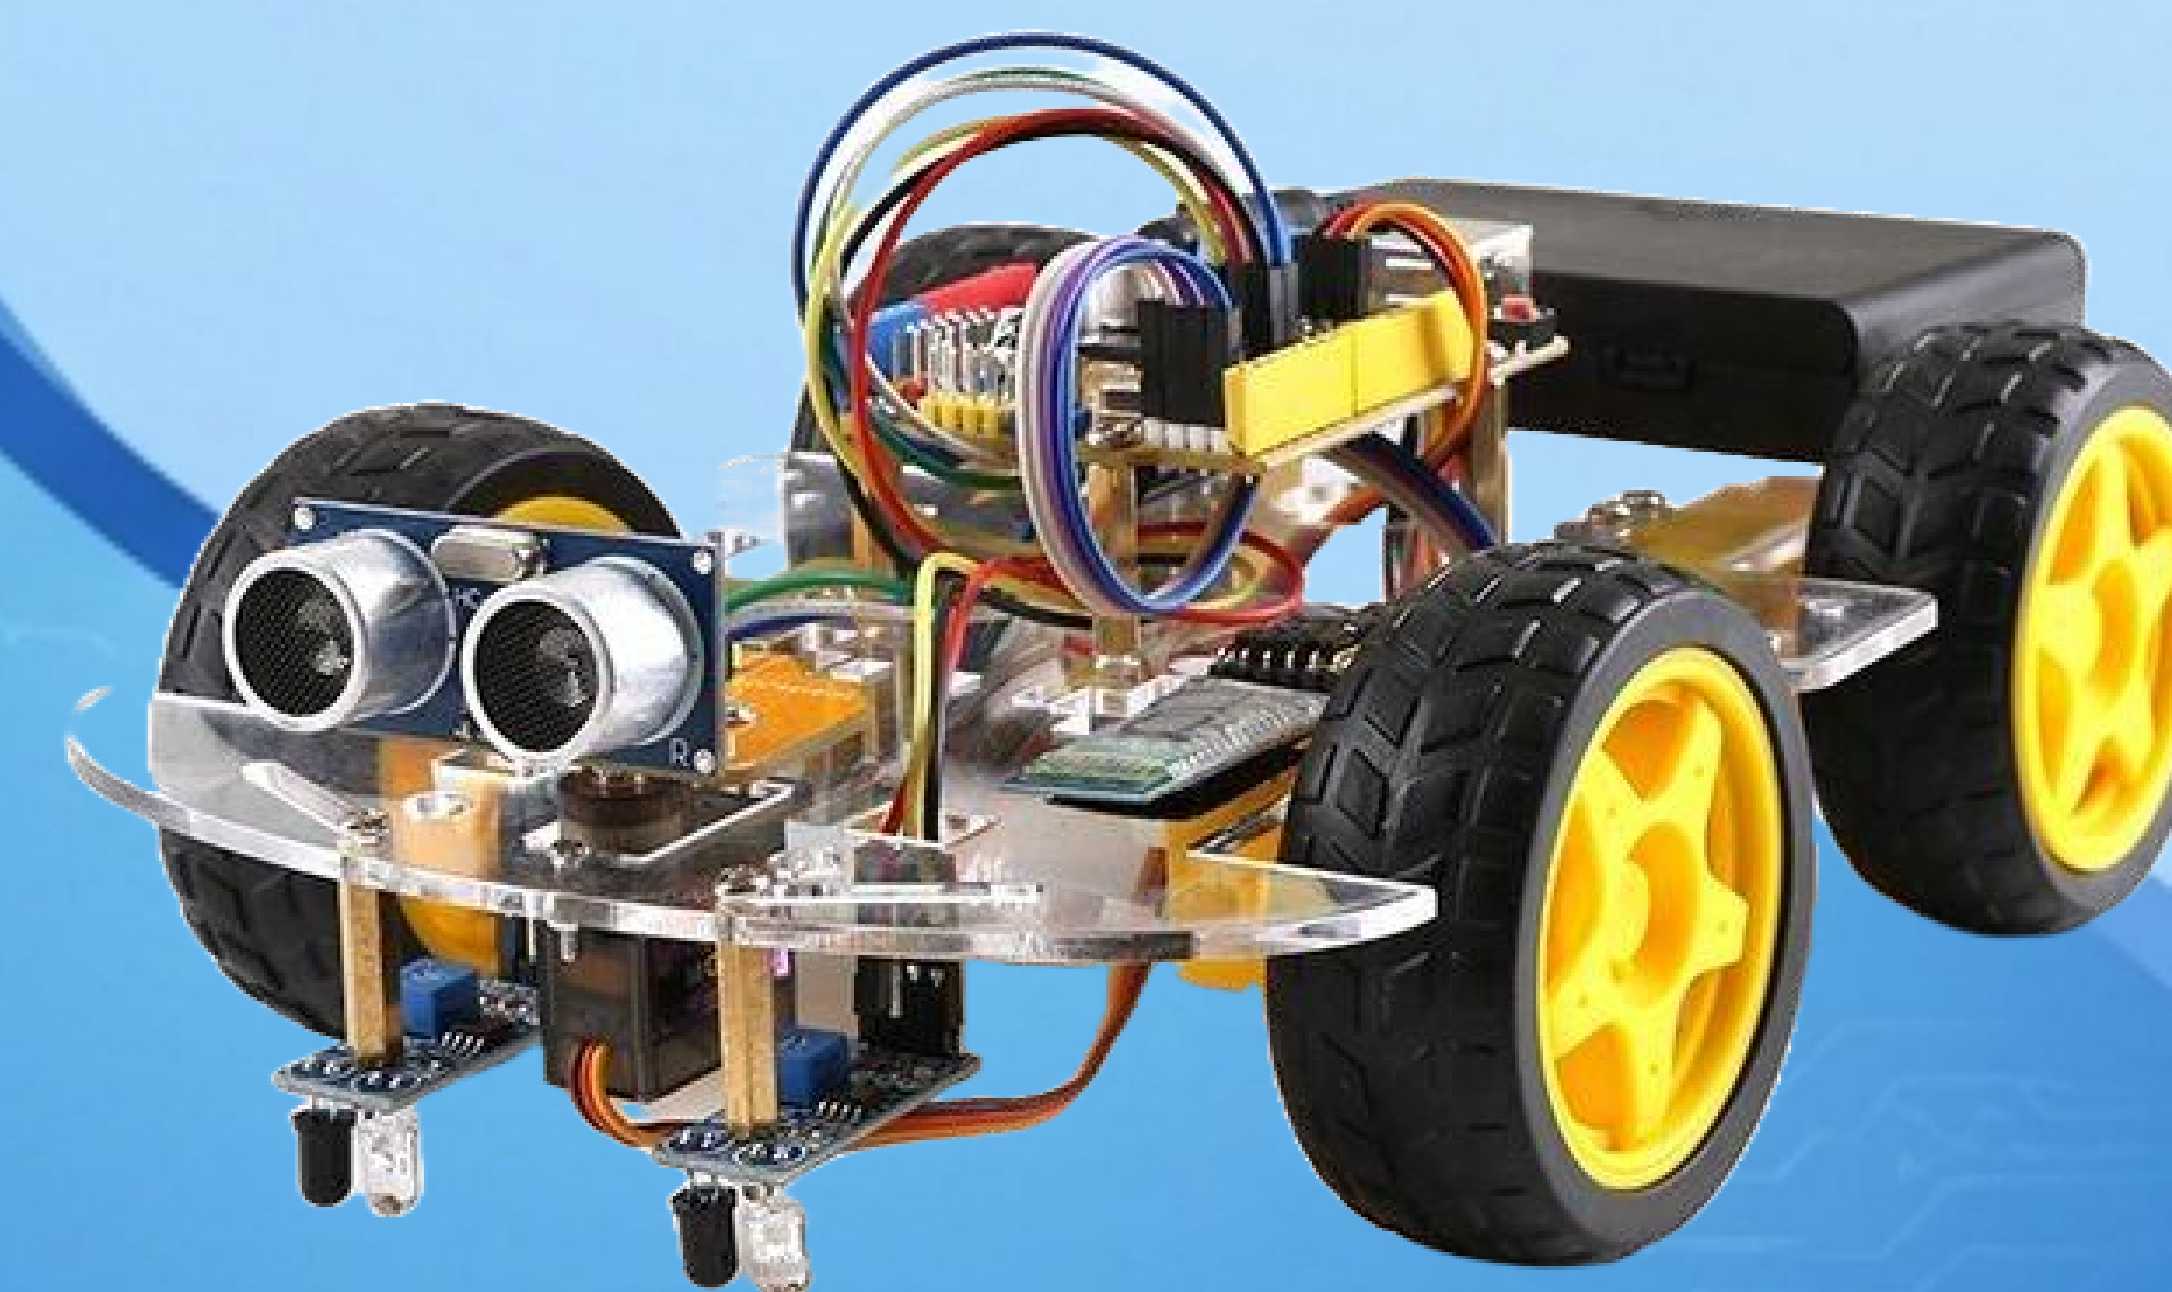

Proyek Nyata dan Relevan Industry

Belajar melalui proyek nyata yang relevan dengan kebutuhan industri dan perkembangan teknologi

TENTANG AURA EDUCATION

Aura Education adalah platform pembelajaran berbasis Project Based Learning yang berfokus pada empat bidang teknologi masa depan

Kami menghadirkan pengalaman belajar IoT, Robotics dan AI yang interaktif, praktis, dan relevan dengan kebutuhan industri untuk membantu siswa, mahasiswa, dan profesional menguasai teknologi secara mendalam dan siap menghadapi tantangan masa depan.

“Belajar, Berkarya, Berinovasi,
bersama Aura Education”
